Dear Sir:

In response to the Notice to Comply with Requirements for Patent Applications Containing Nucleotide Sequence and/or Amino Acid Sequence Disclosures mailed on March 03, 2004, the undersigned hereby states that the content of the attached paper copy of the sequence listing and a computer readable copy of the sequence listing submitted with the U.S. Patent and Trademark Office (PTO) on January 10, 2002, in accordance with 37 C.F.R. §§ 1.821-1.825, in U.S. Serial Number 10/044,423 and identified as Docket No. 529872000100, are identical. The submission includes no new matter.

The present application is a divisional of U.S. Serial No. 10/044,423. Applicants request that the Patent Office use the computer readable form of the sequence listing on file for U.S.

Application No. 10/044,423 in lieu of filing a duplicate computer readable form in the instant application.

Applicants request consideration and entry of the Sequence Listing paper copy and computer readable copy. Pursuant to 37 C.F.R. § 1.77, please enter the paper copy of the Sequence Listing after the Abstract.

It is understood that the Patent and Trademark Office will make the necessary change in the application number and filing date for the computer readable form that will be used for the instant application.

In the unlikely event that the Patent Office determines that an extension and/or other relief is required as a result of this statement, Applicants petition for any required relief including extensions of time and authorize the Commissioner to charge the cost of such petitions and/or other fees due to our **Deposit account no. 03-1952** referencing 529872000110. However, the Commissioner is not authorized to charge the cost of the issue fee to the Deposit Account.

Respectfully submitted,
